

The Health and Work Unit is run by a cross-government team, and is jointly sponsored by the Department for Work and Pensions and the Department of Health and Social Care. The unit is working towards inclusive workplaces for everyone.

In line with this work, we are inviting employers across the voluntary, community, social enterprise and the public sectors through the Health and Wellbeing Alliance to join an initiative that will bring together a group of employers who will commit to being part of a pilot programme aimed at embedding positive attitudes towards employing and supporting people with long term conditions and disabled people.

This pilot will result in a network of employers that are “Positive about Pathways to Work”. Our aim is that the network will grow and have a life beyond this project.

We are encouraging members of the pilot to try and commit to employing at least one person with a long term health condition and/or disability.

If you are interested in this initiative, or if you would like more information, please contact
